The original site plans showed a property finishing at the back of my house, to the rear of the garden. This has now changed and more houses are now shown overlooking my property. Due to the scale and size of the houses and also due to the slope in the land behind my property, this will impact on my living conditions. It will have an effect on the sunlight/daylight reaching my property as well as my personal privacy, as my property will be overlooked. The land behind my property is open farmland adjacent to a large wooded area, the development will have an impact on the character of the area whilst also disturbing the wildlife and their natural habitats. The increased housing will also have an impact on the already strained local transport network, this I feel has not been taken fully into account.
