<p>I would like to object to the building of homes on this land, the local roads simply can not support the increase in construction traffic to build the housing development initially and then the increased number of cars accessing once the homes are habited- many houses have 2+ cars and this would increase the risk to children getting to and from both lepton schools, with increased volume of traffic, particularly close to Rowley Lane Primary.</p> <p>My second concern is the lack of school places for the increase Of new families moving to the area. I believe both schools are currently full, so again this means more traffic on the road, as people would have to use vehicles to transport their children to alternative schools</p> <p>Can the local GP surgeries support the number of new patients, if not this is another reason to stop this development</p> <p>There are plenty of brown field sites, eg: the site where 'Jarmains' stood for years, which has better infrastructure, to consider building on before tearing up green fields and trees in Lepton, I believe the only reason the area around Lepton is being put forward is that developers make more profit with a HD8 postcode than some others, completely ignoring the fact that the land and infrastructure doesn't support such a huge development!</p>
