Address of the site or building:	Land off, Hermitage Park, Lepton, Huddersfield, HD8 0JU
Postcode:	

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>This planning application is wholeheartedly wrong. Oak trees destroyed. The habitat of many creatures and natural inhabitants of an ancient woodland that live in the fields beneath the woods will be affected, the loss of green space when brown sites are left to rack and ruin is absolutely appalling. Save the wildlife - bats, badgers, foxes, kites are returning. Global warming is changing our landscape and green sites must be kept to regulate the earth and stop flooding. This does not meet Kirklees Climate change objectives or help air quality or oxygen production. Brown sites must be used first rather than digging up a beautiful field for more housing that can be charged a premium due to its location. Flooding is well known in this region, particularly at the opposite side of the road and if it is going to run down a tarmaced area it will be even worse. Not long ago Penistone Road was flooded. How can this be classed as no scenic value? Lepton is going to merge into Kirkburton by the time we are done. There will be no fields between.</p> <p>Rowley lane cannot cope with increased traffic its not just school times now its all day long. I know as I live off Rowley Lane and getting in and out of it is a nightmare and can take 10 mins or more and then you have to be careful of other road users due to lack of sight. Hermitage Park cannot possibly take the entrance due to the steepness of the avenue, how are you going to get site vehicles up Rowley Lane and into a tight avenue safely?</p> <p>The infrastructure cannot deal with increased pupils, increased patients and road users. I cannot get into my local surgery and have raised concerns via my Cllr. Make a change to this decision and listen to the people of Lepton. This is nothing short of greed.</p>
