What is the application for?:	Outline application, with access and layout, for the erection of 80 dwellings an
Address of the site or building:	Land off, Hermitage Park, Lepton, Huddersfield, HD8 0JU
Postcode:	

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
There are numerous comments on this site already with regards to the dramatic affect that this development will have on the traffic and road safety situation in Rowley Lane and the Penistone Road junction, not to mention the accompanying noise and disturbance this will bring. Traffic already struggles at these points, particularly at peak times. The initial development has gone from 30 houses to 80. It is a totally unsuitable plan for this area and the effect upon current houses and residents will be enormous and detrimental, as will the knock in effects on trees, landscapes and existing footpaths. The 'ability' of Kirklees planning to continually avoid and seemingly ignore the many objections previously submitted is frankly disgraceful.
