New Planning Proposal 2022/91735

I want to give my strong objections to the above proposal with regard to proposed housing developments in the land adjacent to Lepton Wood.

The reasons behind my objections are:-

1. The land was originally Green Belt
2. Lepton Wood is a habitat for wildlife, and air quality enhancement, much of which is precious and likely to be destroyed,
3. The area is currently great for its scenic value from many viewpoints, particularly from the high ground to the east ie. from over Penistone Road and up to Woodsome Hall Golf Club where the original Hall was built to take advantage of the view.
4. Proposed entrance/exit to/from Rowley Lane is highly dangerous due to steep and curved road and an adjacent school with many parked parents cars at school times.
