<p>The village of Lepton cannot support the amount of people associated with this huge development and hermitage park road and Rowley lane are also unsuitable for all the traffic that will arise from this development. The bend on Rowley lane, near the entrance to hermitage park road, is already very dangerous with all the terrible parking at school drop off and pick up and this will become far more dangerous if this development goes ahead.</p> <p>The fact this development will be on greenbelt land is also despicable and will cause great harm.</p>
