We were surprised (shocked, disgusted) to hear of the planning proposal for the meadowland next to ancient SSI woodland in Lepton. This land was classed as greenbelt but local councillors have reclassified this area as "of no scenic value"!! How so? Have they been to the area and seen the woodland, the valleys, the stunning views, the wildlife? This would all be desecrated by the building of more dwellings. We cannot continue building over greenbelt land without recognising the cost. This is an irreplaceable habitat which is very scarce. We can't continue concreting over the land without the ensuing flood risk, further strain on public services, road congestion, loss of oxygen production. This landscape is needed for people's mental and physical health. This pursuit of profit, whatever the cost, must be halted. As fellow human beings, we trust the planning committee will see sense and make the right decision.
