<p>These plans are to build on reen belt land - this is wrong it WILL damage the natural envirobment it Will take populations to the edge of th ancient woodland and Will end up with over use of teh woodland, and rubbish / tipping It will displace wildlife It will spoil the character of the area and the many lovely walks around the area It will ruin the view of the woodlands and to the woodlands It will ruin the view of the hollside from teh hillside opposite It will bring more traffic onto already busy roads (Pennistone Rd & Rowley land and make their junction worse, suggested alterations to that junction mean destroying yet more land</p> <p>Please redevelop the town centre / canal side and town centre riverside, this is where population is needed not here where it is not needed nor wanted</p>
