APPLICATION NUMBER 2022/91791 64 WESTFIELD LANE SCHOLES CLECKHEATON BD19 6DR I am objecting to the building of two houses on the land at this address because for one reason they will be out of character with the area. The three storey houses will be in the middle and encircled by bungalows and therefore will tower above these dwellings and will look out of place and not blend into the landscape. These houses which are built with balconies and dormer windows facing north, will be overlooking six bungalows, there gardens and bedroom windows and therefore intrude on there privacy, which has been in force since the bungalows were built, about fifty years ago. This could affect the value of these properties in the future. I hope you will take into consideration the points I have made when you access this planning application!
