*Parking on Occupation Lane and surrounding areas, is already difficult. There are dozens of vehicles parking on the pathways and obstructing access. Occupation Lane is, in parts a single lane road. There is still not the equivalent parking to accommodation in the proposed plans. Access for emergency vehicles is already difficult and would be made worse as more people will be parking on the narrow road. * Im in the ground floor flat and my view will be completely obstructed as will the natural light i gain at the moment. I have severe mental health issues and rely on the view and sunlight to help lift my moods. * There is a family of foxes in the land that the plans are submitted for. As well as other wildlife and plantation. * Crime and damage to property, vehicles and garden equipment will increase. Noise pollution through late night comings and goings and parties will greatly affect a quiet and peaceful neighbourhood. There is already drug dealing going on next to Staincliffe park, on Occupation Lane. This will be happening on our doorstep. * Our property value will decrease as no-one will want to buy in this area anymore. * We have a variety of age groups and ethnicities in this area and it works harmoniously at present. I don't want our young children witnessing crimes and our elderly being disturbed of peace.
