Dear Mathias Franklin,

I am writing to you on behalf of my mother She would like to send her objection to the above application for planning permission to build 4 dwellings ajd to 5 Fernside avenue.

Her reasoning for this is that due to the above complications she feels this will negatively impact upon her mental health as she will lose the free roam of an outside area of the garden. This is due to the privacy and comfort she feels within the garden due to the shielding around it. The dwellings would impede upon this meaning she would struggle to go out into the garden anymore.

I hope you can understand the reasonings behind this objection and work to help us in this situation.

Thank you for taking the time to read this email.

Kind regards,
