Subject: Planning Application Comments for 2022/91929
Date: 01 August 2023 07:10:28

I would like the planning officer to look at the application with regards to my objection to the proximity of the build in relation to the boundary line as I think it is far too close to my property and my boundary wall. This will affect my privacy from my principle windows.

The planned build is also directly under a mature tree which I do not believe is advisable. Can I have assurances that the tree will not be disturbed or affected by the planned build.

I ask that the build is moved back approx. 3m to bring it in line with the neighbouring property.

I would also like to object to the size of the build in relation to the size of the plot as this looks to me to be more than the permitted ratio.

Thanks
