<p>This building was demolished even before permission was given A illegal act. There is no need for another educational institution in that area due to the many that are already in proximity. Then you have the dangers of the location of the educational institution. On a bad bend and traffic is already at dangerous levels. I therefore am totally against this application and want someone to explain how you can demolish a build before permission is granted. There is no safe parking in a already unsafe junction. The schools further on the road are already congested with the amount of cars parked at busy times.</p>
