I am a resident who lives within close vicinity of Donaldson's veterinary hospital. I vehemently object to the erection of a single story to the existing building. Currently, hospital staff are discouraged to park in the hospital car park and as a result, park dangerously on Longley road. I have cars/SUVs regularly parked on either side of my drive which create blind spots. Having to navigate my car onto a busy main road with 2 young children in the back isn't an easy task. As residents of Longley road, we have plead with Donaldson's to allow their staff to use their car park, to park further up Longley road to avoid the creating a bottle neck at the bottom of the road and we've asked staff to ensure they don't park with their cars semi-blocking drives. Unfortunately, these please have fallen on deaf ears.

If this extension is allowed to go ahead, it will cause further parking issues on Longley road and potentially risk dangerous road collisions which involve innocent young children as passengers.

The residents of Longley road have contacted Kirklees regarding the parking issues on several occasions. We hope the council will support us by rejecting the planning application. Another story will create more traffic and lead to accidents.
