The parking at the bottom of Longley Road are incredibly dangerous. Veterinary staff are not allowed to park in the Vets carpark which means they park on Longley Road near to the mini roundabout. It is on a bend and cars parked on both sides narrows the road making it a single lane & it is dangerous. You cannot see what is coming in the opposite direction when approaching until it is too late. How someone has not been seriously injured is a miracle. The council and Vets are aware of the dangerous parking and nothing has been done. Extending the building will just cause additional traffic and additional dangers. Until there is a viable alternative agreed in relation to parking at the bottom of Longley Road I oppose any extension that may contribute to this further by increasing the traffic to the building. I do not consent to my address, telephone number or email address being made public.
