Increased parking on Longley Road since the vets was first built is already causing dangerous congestion on the lower part of Longley Road towards the roundabout on Somerset Road. Staff working at the vets use Longley Road for daily parking, I believe they have been instructed not to use their car park, even though their car park has plenty of parking spaces. Car parking is causing very hazardous visual obstructions, in particular where cars are parking on both sides of the road where the road curves towards the roundabout, this is making making exiting driveways difficult, and causing buses and postal vans have to stop in the middle of the road. I object to the extension. Despite reassurances to the contrary it gives room for increased staffing levels and an increase in their clients numbers.
