| I raise this objection due to a rise in dangerous parking on Longley Road by the Veterinary staff. The entry to this road is just off a mini roundabout, and once you enter Longley Road the road has bends and this is where a lot of Veterinary staff are parking their cars on both sides of the bend making it dangerous for cars to follow the natural traffic flow. This is more so dangerous when a Bus is passing, further more extremely dangerous if an emergency services were to be called in the area. When some cars are parked on the pavement this also makes it difficult and dangerous for disabled people in wheel chairs, mums in prams and mobility scooters. The Veterinary staff are not allowed to park in the Vets car park which means they park on both sides of Longley road. Extending the building will just cause additional traffic, the Veterinary has already caused high traffic in whats usually a nice quite residential area. Until an alternative parking solution has been agreed with the Vet and its staff in relation to parking at the bottom of Longley Road I oppose to any extension which may cause further traffic issues. | |
