Attachments: car parking Somerset Rd .docx

Dear Officer,
I have received the email below and photo showing a car blocking someone's access to their garage down Somerset Rd. It was removed following a complaint to Donaldsons shortly afterwards. The resident sent it to me to highlight the continuing problem with seemingly staff parking their cars from Donaldsons parking in front of houses down Somerset Rd.
Please can you place these comments with the file on the planning portal.
In the meantime please can you tell me what is happening on this planning application and when it is likely to be dealt with by committee.
Thank you,
Alison Munro

>
> Good Morning
>
> I understand that the above planning application is under review by the council and is dependant in part on the owners complying with current planning restrictions involving staff parking in the designated car park at the site.
>
> With this in mind I would like to highlight on-going issues regarding staff at Donaldsons Vets causing obstuctions by parking on surrounding streets rather than in the designated site car-park.
>
> Staff from the site are still regularly park cars throughout the
> working day in the layby uphill from the site on Somerset Rd, and I
> have regrettably had to get used to inching my way out of my garage
> onto Somerset Road because of restricted lines of sight. However on
> Tuesday this week access to my garage was completely blocked by a car
> parking across the entrance meaning that I was unable to get my car
> out. Please see attached photo
>
> Of the cars pictured in the photo, only the far right car is owned by a local resident, the other 2 cars either side of the garage have been regularly parking in this area throughout the day for the last month.
> The silver Vauxhall parked across the garage was not familiar to us.

>
> I cannot catagorically state that this was a car belonging to a staff
> member at the vets, but it was removed within 10 mins of my phoning
> the surgery to request that it was removed, after being there for more
> than
> 2 hours.
>
> I would urge you therefore not to assume that although parking close
> by the Longley Road roundabout may have eased slightly in the last
> while, that the parking issues associated with the vets has been
> resolved
>
> Yours sincerely
