DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	**2022/62/92102/E**
Site Address:	23, Lane Hackings Green, Lower Cumberworth, Huddersfield, HD8 8PW
Description:	Erection of first floor rear extension
Recommending Officer:	Jennifer Booth

DECISION – CONDITIONAL FULL PERMISSION

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

Emma Thompson

AUTHORISED OFFICER

Date: 16-Aug-2022

OFFICER REPORT

Site Description

23 Lane Hackings Green is a detached, stone built dwelling which has been extended previously to the front, side and rear. The property has a drive and gardens to the front with an enclosed garden to the rear.

There are residential properties to each side and to the front which vary in terms of age and style and the property backs onto open fields.

Description of Proposal

The applicant is seeking permission for a first-floor rear extension.

The extension is proposed to project 4m from the original rear wall of the dwelling, in line with the ground floor extension with a width of 5.9m. The roof form would be a perpendicular pitched roof.

The walls are proposed to be constructed using stone with slate for the roof covering.

Relevant Planning History

1989/04950 - erection of two storey extension to form garage, kitchen, two bedrooms and shower room - granted

2007/94204 - erection of single storey rear extension - granted

Representations

The application was advertised by site notices and neighbour letters, which expired on 01/08/2022

As a result of the above publicity, one representation received. The matter raised relates to privacy – specifically relating to a side window.

Denby Dale Parish Council has been consulted and have responded with no objections.

Consultation Responses

None

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The

statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The site is UNALLOCATED on the Kirklees Local Plan Proposals Map

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target; however, it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Kirklees Local Plan Policies

- **LP 1** – Achieving sustainable development
- **LP 2** – Place shaping
- **LP 22** – Parking
- **LP 24** - Design

Kirklees Council adopted supplementary planning guidance on house extensions on 29th June 2021 which now carries full weight in decision making. This guidance indicates how the Council will usually interpret its policies regarding such built development, although the general thrust of the advice is aligned with both the Kirklees Local Plan (KLP) and the National Planning Policy Framework (NPPF), requiring development to be considerate in terms of the character of the host property and the wider street scene. As such, it is anticipated that this SPD will assist with ensuring enhanced consistency in both approach and outcomes relating to house extensions.

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published 20th July 2021, and the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 12 – Achieving well-designed places
- Chapter 14 – Meeting the challenge of climate change, flooding and coastal change

Assessment

Principle of development:

The site is without notation on the Kirklees Local Plan (KLP). Policy LP1 of the KLP states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the NPPF. In terms of extending and making alterations to a property, Policy LP24 of the KLP is relevant, in conjunction with the House Extension SPD and Chapter 12 of the NPPF, regarding design. In this case, the principle of development is considered acceptable, and the proposal shall now be assessed against all other material planning considerations, including visual and residential amenity, as well as highway safety.

Impact on visual amenity:

The properties on Lane Hackings Green are residential with some diversity in terms of age and style. Dependent upon design, scale and detailing, it may be acceptable to extend the host property.

Key Design Principle 1 of the House Extension & Alteration supplementary planning document (SPD) does state that extensions and alterations to residential properties should be in keeping with the appearance, scale, design and local character of the area and the street scene. Furthermore, Key Design Principle 2 of the HESPD goes onto state that extensions should not dominate or be larger than the original house and should be in keeping with the existing building in terms of scale, materials and details.

The first floor extension would extend over part of the existing ground floor extension. The property is set within a reasonable amenity space and the scale can be considered to be acceptable. The materials proposed include the use of stone for the walling with tiles for the roof covering which will match the main house. The fenestration would be similar in proportions to the main house. The first floor extension is therefore considered to be acceptable in terms of visual amenity.

Having taken the above into account, the proposed extension would not cause any significant harm to the visual amenity of either the host dwelling or the wider street scene, complying with Policy LP24 of the Kirklees Local Plan (a) in terms of the form, scale and layout and (c) as the extension would form a subservient addition to the property in keeping with the existing building, KDP 1 & 2 of the House Extension and Alterations Supplementary Design Guide and the aims of chapter 12 of the National Planning Policy Framework.

Impact on residential amenity:

Consideration in relation to the impact on the residential amenity of neighbouring occupants shall now be set out, taking into account policy LP24 c), which sets out that proposals should promote good design by, amongst other things, extensions minimising impact on residential amenity of future

and neighbouring occupiers. The SPD goes into further detail with respect to Key Design Principle 3 on privacy, Key Design Principle 5 on overshadowing/loss of light and Key Design Principle 6 on preventing overbearing impact.

There are no properties to the rear which could be affected by the works proposed.

Impact on 21a Lane Hackings Green

The adjacent dwelling to the west projects beyond the rear elevation of the host property and at a slightly higher level. There are existing windows in the rear elevation serving habitable rooms that have a view over the rear garden areas. Whilst the development would extend close to the boundary due to site specific circumstances this is considered acceptable in this instance. The relationship between the properties is such that the proposed first floor extension would have no significant impact on the amenities of the occupiers of the adjacent dwelling to the west with regards to overshadowing, overbearing or overlooking.

With regards to the impact on the adjacent 21a Lane Hackings Green, the scheme has been considered in terms of KDP3 – privacy, KDP5 – overshadowing and KDP 6 – overbearing impact, policy LP24 of the KLP c) in term of minimising impact on neighbouring occupiers and advice within chapter 12, paragraph 130 of the NPPF and the proposals are considered to be acceptable.

Impact on 25 Lane Hackings Green

The extension would be set back from the side elevation by 3m with an overall separation between the new first floor side wall and the neighbouring 25 Lane Hackings Green of approx. 9.6m. There would be a landing window in the side elevation. Whilst not a habitable room, this would face towards a bedroom in the neighbouring property and as such it is not considered to be unreasonable to require the new window is obscurely glazed. With an appropriate condition, there are no significant concerns in terms of privacy. It is noted that the adjacent dwelling is a dormer bungalow sited further back within its own plot and at a lower level relative to the host property. Given this relationship, the extension proposed would not cause any significant overbearing impact or overshadowing.

With regards to the impact on the adjacent 25 Lane Hackings Green, the scheme has been considered in terms of KDP3 – privacy, KDP5 – overshadowing and KDP 6 – overbearing impact, policy LP24 of the KLP c) in term of minimising impact on neighbouring occupiers and advice within chapter 12, paragraph 130 of the NPPF and the proposals are considered to be justifiable.

Having considered the above factors, the proposals are not considered to result in any adverse impact upon the residential amenity of any surrounding

neighbouring occupants, complying with Policy LP24 of the Kirklees Local Plan (b) in terms of the amenities of neighbouring properties, Key Design Principles 3, 5, 6 & 7 of the House Extension SPD and Paragraph 130 (f) of the National Planning Policy Framework.

Impact on highway safety:

The proposals will result in some intensification of the domestic use. However, there is a garage and parking to the front for at least three vehicles (inclusive of the garage) which is considered to represent a sufficient provision. Bin storage for the dwelling would not be moved as part of the proposals. As such the scheme would not represent any additional harm in terms of highway safety and as such complies with Policy LP22 of the Kirklees Local Plan along with Key Design Principles 15 & 16 of the House Extension SPD.

Other matters:

Biodiversity

After a visual assessment of the building by the officer, it appears that the building is in good order, well-sealed and unlikely to have any significant bat roost potential. Even so, a cautionary note should be added that if bats are found during the development, then work must cease immediately, and the advice of a licensed bat worker sought.

Carbon Budget

The proposal is a small scale domestic development to an existing dwelling. As such, no special measures were required in terms of the planning application with regards to carbon emissions. However, there are controls in terms of Building Regulations which will need to be adhered to as part of the construction process which will require compliance with national standards.

There are no other matters for consideration.

Representations:

One representation received. The matter raised relates to privacy – specifically relating to a side window.

Privacy is a material consideration. A condition will be included requiring this window is obscurely glazed.

Negotiations:

None

Proposed conditions

Along with the standard timescale condition, which is a requirement of Section 91 of the Town and Country Planning Act 1990, it is considered appropriate to add the following conditions.

Accordance with the approved plans to ensure the development is carried out in line with the officer's assessment.

Matching materials to ensure that the extensions harmonise with the host property as using alternative materials would look out of place within the street scene.

The landing window proposed in the east side elevation should be conditioned to be obscurely glazed to ensure privacy for the occupant of the bedroom in the adjacent dwelling.

Conclusion:

This application to erect a first floor extension to the rear of 23 Lane Hackings Green has been assessed against relevant policies in the development plan as listed in the policy section of the report, the House Extension SPD, the National Planning Policy Framework and other material considerations. Given the acceptable design and lack of harm in terms of visual and residential amenity, the proposed extension is considered to be acceptable.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

Recommendation **Approve**

Decision Authorisation - Delegated Powers
Application Number: 2022/92102
Officer Recommendation: Approve
Conditions and Reasons

1. The development hereby permitted shall be begun within three years of the date of this permission.
Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.
Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extension SPD and the aims of the National Planning Policy Framework.

3. The external walls and roofing materials of the extension hereby approved shall in all respects match those used in the construction of the existing building.
Reason: In the interests of visual amenity and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extension SPD and the aims of chapter 12 of the National Planning Policy Framework.

4. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 as amended (or any Order revoking or re-enacting that Order with or without modification) the first floor window on the east side elevation shall be obscure glazing to a minimum privacy level 4 or equivalent and shall thereafter be retained.
Reason: So as not to detract from the amenities of adjoining property by reason of loss of privacy and to accord with Policy LP24 of the Kirklees Local Plan.

NOTE: Due to its location, a bat roost may be present on site. Bats are a European protected species under regulation 41 of the Conservation of Habitats and Species Regulations 2010. It is an offence for anyone intentionally to kill, injure or handle a bat, disturb a roosting bat, or sell or offer a bat for sale without a licence. It is also an offence to damage, destroy or obstruct access to any place used by bats for shelter, whether they are present or not.

If bats are discovered on site development shall cease and the applicant is advised to contact Natural England for advice.

NOTE: The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior

to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours, Mondays to Fridays
08.00 and 13.00hours, Saturdays

With no working Sundays or Public Holidays

In some cases, different site specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.

Plans and specifications schedule: -

Plan Type	Reference	Web ID	Date Received
Proposed plans	22.009(2-)001	938524	21/06/2022

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2015 and otherwise actively engaged with the applicant in dealing with the application.

As the submitted plans were considered to be acceptable, no changes were sought.

Report Dated 09/08/2022
