Hello, I live just a field over from the proposed. (Approx 200-300 meters away). We are in full support of sustainable and friendly businesses such as this one. We are in a semi rural location where it is suitable for many residents of the area to own dogs, and a business of this type I feel can only be a benefit to local residents with dogs. Let alone any job opportunities created by the creation of a small business. Having been made aware that this business was in operation in a relatively small way, I feel it relevant to mention that I have actually never experienced any noise. We have three dogs of our own, who are quite sensitive to the sound of other dogs barking and we haven't experienced any issues. I wish the all the best with their venture. Regards,
