Eco homes is a misnomer. Building homes on greenbelt lands is not eco, This proposal will result in some serious car accidents, there is nowhere on that site you do not have a blind corner to oncoming vehicles. Its madness, Nevermind there is no room at the school, doctors or dentists. Please reject this proposal, because somebody is going to get killed. This is not nimbyism this is a legitimate concern for peoples safety. There are plenty of brown field , old mill complexes to build houses with proper safe access
