In supporting the application I firmly believe that the provision of affordable houses in the Holmfirth area is a great need. Provision for local first time buyers and renters is inadequate. I worry for our own grandchildren living in the area. So low cost housing, low energy cost building offered by this scheme for people living and working in the area will be a blueprint for future developments. I have great confidence that after extensive consultations by Eco Holmes the scheme will be of great benefit to Holmfirth residents. The additional benefits will be that these houses will not be turned into holiday homes/second homes.
