<p>The site is designated green belt and should not be considered for building. Previous planning application were rejected or withdrawn.</p> <p>The site is on a dangerous bend which will lead to road safety issues, with both parking and pulling out onto the Dean Bridge road.</p> <p>During periods of heavy rain fall the site holds large amounts of water which will lead to potential flooding of both the site and Dean Bridge lane. The Dean Dyke has already collapsed due to flooding during the early part of this year. This will have an impact on the Dobroyd (Jackson Bridge) development.</p>
