I am a local resident who regularly walks in the area and I OBJECT to this planning application based on the following : The site is located on a bad blind bend in the road which has no pavement and is generally busy with local traffic and increases with school traffic both from Scholes and Hepworth Schools. Local residents use this area for dog walking because it is a safe place to use away from the roadside. Wildlife thrives in this space which is designated green and should be preserved as such. There are other locations in the Holme Valley designated as brown land for planning purposes. The local infrastructure is also saturated. Schools places are in shortage and other local amenities such as doctors and dentists are over-subscribed. In addition the roads to access this site are in poor repair, narrow and already busy with existing traffic. A decision to pass this application would be very poor and I STRONGLY OBJECT.
