I am fully supportive of Eco Holmes development in Scholes and more so following latest alterations to the access. We need more of this type of eco-friendly affordable homes for local people ... and local people need the ability to live in the Holme valley if they grow up or work here. It is so important for community well-being. Thinking about the chances of residents' grown up children or grandchildren continuing to live here would seem to be quite limited at present ...many new oversized housing projects preclude first time buyers. The growth of airbnb in the district soaks up much needed smaller properties.
