We support this planning application on the grounds that there is insufficient provision of affordable housing in the Holme Valley at the present time. There is an obvious demand for affordable housing in the Valley, but even in the most recent housing developments, the 'affordable houses' are way beyond the reach financially of some local people who would like to remain in the area. We are happy to support this small scale development of only 10 houses which have the added bonus of being low energy in nature.
