<p>I would like to express my support for this planning application. EcoHolmes have done an excellent job in identifying the need for affordable homes in the locality. Chippings Dump is an old quarry that was used by Kirklees as a base for storing highways materials. It is in essence a brownfield site. There would be no significant loss of amenity to residents if this development goes ahead, as the site is used in the main by local dog owners who take their dogs there to use it as a dog toilet. There are plenty of dog walking tracks nearby to this site. The claim that children use this site as a play area is not accurate. There is a large, flat, well maintained playing field adjacent to this site which children do use as a play area.</p> <p>EcoHolmes have put together a well researched, professional planning application which I believe stands up well to scrutiny.</p> <p>I very much hope the development goes ahead as we desperately need high quality, energy efficient homes in this area.</p>
