I am highly supportive of this planning application. Housing in the Holme Valley is disproportionately expensive compared to wages and we are in huge need of affordable homes. This proposal goes one step further and keeps this affordable in perpetuity - what a marvellous asset for the community in the years ahead. Moreover, the environmental credentials of this are genuinely giving me hope for the future. If we are to have any chance of meeting net zero and avoiding climate catastrophe then this is exactly the type of development we should be supporting and encouraging elsewhere - meeting the needs of local people for good quality affordable housing but not at the sacrifice of wider climate concerns. Hugely supportive and will be great to see this as a blueprint for further developments in Kirklees.
