This is an amazing project which is supported by a range of capable and committed to people for the greater good. The location which is, as far as I can see, a brown field site, is perfect and causes no obvious disadvantage to the locally existing properties. Ok there are a few dog walkers who find is convenient to let their dogs there but other that that this is good use of the land. There are a great many more foot paths in the area to walk your dog on. This is is a top end, quality construction which suits the area well and benefits the community. Having looked at the plans I believe that these properties will fit in to the local environment and indeed enhance and ultimately add value to all properties in the area. I do not see any problem with regard to the local highways and indeed would point out that in all likelihood the volume of traffic will reduce in the coming years due to new working practices eg working from home and also technological advancements eg electric bikes, driverless taxis and more buses. We need more houses which are affordable to rent by locals who are being priced out of the market. I give my support to this project
