I object to the above planning application for the following reasons:

- 1) Site for development is Green Belt and there are many brown field sites available in the Valley
- 2) Site being on a blind bend with no pavement for pedestrians opposite White Wells Rd - dangerous!!
- 3) More disruption during construction if planning passed. Construction traffic on a 'B' Road the same road as school children use each morning and evening and have to cross from Wadman Road into Chapelgate with no defined level crossing. Further with limited vision as they cross with traffic coming from the Hgworth direction
- 4) More pressure on Scholes Junior School, prospective increase in pupil numbers
- 5) More pressure on Village water / Sewer infrastructure, we remember the collapsed sewer in Jackson Bridge recently
- 6) Narrow Roads with the increase in traffic through the village insufficient parking and traffic management measures.
- 7) Deep Bridge bottom flooding issues. This collapsed over the dyke in 2022 due to flooding
- 8) Undue increase in local amenities, doctors, dentists, school are already over subscribed.
- 9) Loss of community green space, land used for dog walkers and children using their bikes
- 10) Loss of existing wild life, particularly birds from a nesting and food point of view.
- 11) Road used as a rat run between Hgworth and Scholes on the way to Holmfirth and points east to Manchester. Heavy morning and evening traffic - already dangerous
