What is the application for?:	Erection of 10 affordable dwellings, with access from Chapelgate and associated
Address of the site or building:	Land Adj, 67, Chapelgate, Scholes, Holmfirth, HD9 1SX
Postcode:	HD9 3BW

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
Whilst I understand the need for affordable housing in the Holme Valley, I am against and object to this and any development on the Old Quarry (Chipping site). The site is a designated Green Belt site and should not be used to provide affordable housing. Brownfield sites should be considered before this site. Dean Bridge Lane is very steep and at the top there is a blind corner where the proposed houses will be built. There are always dog walkers and cyclists using this road and if there were 10 houses there would be many cars coming and going on the blind corner and it is just an accident waiting to happen. There are no pedestrian footways either making it unsafe. These are just some of the objections I can point to but the wider infrastructure of Scholes is fit to burst (sewers at maximum), traffic congestion issues in the centre of Scholes and Dunford road too.
