Hello

I have received your objection email dated 2nd October. This will be considered in the assessment of the planning application.

Regards

David

Subject: Proposed houses on the junction between Dean Bridge Lane and Chapelgate, Scholes, Holmfirth

Dear Mr Wordsworth

I wish to complain in the strongest possible terms about the proposed housing development in the disused quarry on the bend as Dean Bridge Lane ends and Chapelgate begins.

My main problem is with the cars. Any cars from that development will be coming out on a blind bend. It's a cliché but it really is an accident waiting to happen, potentially a very serious accident.

Also, if children come out on to the road from the development there could be a fatality.

I am not exaggerating.

Please stop this development.

Surely nobody involved in this wants blood on their hands.

Yours sincerely,

HD9 1RP

I wish to remain anonymous, please.
