As a Scholes resident of nearly 50 years, I support this application - an admirable environmental initiative in one with both the Holmfirth Parish Council and with Kirklees Council's green policies. The opposition to this, however shrill, is from a tiny number of objectors, and has featured several inaccurate claims about the land in question. We badly need affordable housing for local people, and the environmental features of the proposed dwellings are excellent. I do hope it goes through.

Yours etc
