Address of the site or building:	Land Adj, 67, Chapelgate, Scholes, Holmfirth, HD9 1SX
Postcode:	HD9 3BW

User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
Having read the additional documents added by Ecoholmes to this application, I still have grave concerns about the proposal as per my previous objection. The loss of greenbelt, loss of natural biodiversity and in particular the danger to life and limb from the traffic and steep hill/Junction. The siteplan now shows, outlined in red, the verges across the front of Nos 67 and 65 Chapelgate. This showing the sightlines from the entrance road into the proposed site for vehicles exiting the site. However, much of the time cars or vans are parked on this strip of verge , which blocks the view for drivers trying to leave the site. Similarly our visiting family and friends park there as its directly in front of our property. Currently also we have the 310 double decker buses flying up and down to Hepworth four times an hour due to normal route being blocked by roadworks. This happens every time roadworks mean the buses have to divert. I also strongly object to being called a Nimby by some supporters of this scheme. This is not true, we purchased our home directly opposite a row of council houses, we have no issue with the occupants of the houses. In fact we are all friendly and form a community it is a pleasure to live in.
