| <p>Further comments re objections, as not enough room to write in one submission:</p> <p>I object to this development on the ground of the loss of biodiversity as a direct result of the development.</p> <p>The updated report does not change anything – there is still a catastrophic loss of biodiversity as a result of these proposals and the developer saying that they could usurp part of the local community's playing field next door will simply not do, nor will it make this proposal comply with planning policy - it doesn't!</p> <p>Please reject this proposal.</p> |     |
