Small stockpiles of arisings from foundations and drainage to be stored in the northern section of each phase. Arisings from foundations and drainage will not be re-used on site and will be removed, therefore stockpiles will be short term with muck away lorries removing this material continuously until the work phase is complete.

Planned Stockpile Locations

Phase 1 Foundations and Drainage

Phase 2 Foundations and Drainage

Phase 3 Foundations and Drainage

Oldroyd Building

STONEFIELD STREET

Rookby Cottage

Boothroyds House

61.3m

67.4m

20m Scale

Small Stockpile Management During Foundations and Drainage Works
