I wish to comment on the proposed appearance of the conservatory/orangery and dormer extension. The intricate detail of the proposed design (as shown on the drawings) both reflect something that is NOT in keeping with the rest of the area or street which have standard/normal conservatories and orangeries. Permitting an intricate design such as this would set a precedent for off the shelf designs which change the look of the properties that exist in the area. Although not an objection, I do wish for design clarity or the need to simplify the proposed look of the dormer extension and conservatory to keep it in line with other properties. Intricate designs could be simplified for simple aluminium designs like other properties nearby.
