I live next to a school already and now this application is being made for another one across the road to me. Due to existing Mount school it is almost impossible for me to get out of my house in the morning and specially in the afternoon when school finishes. people park in front my gates and all over the places on the road. I have confronted people every now and the and told school as well but I face this issue every day, Today a delivery came to my house and this truck had to wait more than half an hour in my gate to get out of the house as cars were parked in front of my gates and at the corners. I will email you pictures and a video I have taken at that time to show you the severity of the issue we have here.

Bryan Road is a narrow road and at school time cars are parked on one side all the way on this road. Often the traffic get stuck on the road as only one car can go past then. People horn loudly when the traffic is stuck which disturb me a lot during the online meeting as I work from home most of the time. I also hear noise from next door school and don't want more noise on this road.

Even with the existing school we need road markings and police patrol to avoid this chaos on my road every day. There should be double yellow lines and keep clear signs near the corners and in front of gates so that residents can at least come out of their houses at school times. Bryan Road used to be a private road but now the amount of traffic going through to the Birkby Road from Halifax road using Bryan Road as a shortcut is awful.

I therefore strongly request you to reject this planning application as it will cause a mayhem in the area.
