| <p>The application proposes the height of the existing retaining wall of the Royal Oak car park to be raised to 1.8m. This wall would obscure the view due south from the road (Town Gate) and have a dramatic negative effect on the character of the area. Currently the view south from the road and The Royal Oak car park over the Holme valley and up towards Holme Moss is one of natural beauty that is available to all members of public who pass by. As a result this proposed wall would ruin the natural landscape of the area to one which would be enclosed, ruining a view that has always been adored and cherished.</p> |                              |
