<p>This planning application would result in the view from the Royal Oak public house outside area being completely blocked. The view from the pub is enjoyed by residents and visitors to the area. Who wants to sit looking at a stone wall? If the application is successful this could even have a detrimental impact on the viability of the pub. The Royal Oak is important for Upperthong as we do not have a shop - it is a meeting place for many people.</p> <p>This planning application should not be successful because it will affect the character of the area considerably. The design, appearance and layout will spoil the view not just from the pub but also looking through the carpark from Towngate.</p> <p>People should not buy houses near a pub if they are not happy with the location and therefore feel the need to block it off from their view.</p>
