Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
I object to these amended plans as they do not address the 100+ objections in relation to road safety. Many recent comments support additional off street parking for three cars - I am unsure which three cars this would relate to (maybe pay and display) as the applicant has one car and continues to choose to park on the street/pavement rather than off road using the adequate driveway currently in situ yet blocked with debris. The current drive incidentally would appear wider than the proposed driveway on plan. Should the applicants genuinely wish to take cars off towngate and improve road and pedestrian safety surely they could do this currently and not park on the pavement. Many residents are forced to park on the pavement to allow adequate access for emergency and service vehicles as the road is too narrow for two vehicles to pass, thus it is too narrow for cars to exit the proposed drive/barn demolition with cars parked opposite safely. Another serious accident or further fatality waiting to happen. A suggestion of updating the property sympathetically as per conservation report should be a main focus for the applicant, updating the current neglect of this adequately sized property and considering using the current drive as it was intended.
