<p>I object to the resubmitted plans as although the owners have taken on a number of views from the previous objections and the areas of concerns raised via the Conservation &amp; Design consultation there are still a number of reasons I have previously highlighted which have not been addressed.</p> <p>The proposed new access/exit through the existing barn. There is no footpath on the application site of Town Gate which along with no line of sight on exit and the inability to turn directly into the new entry still compromises the safety of other road users and pedestrians.</p> <p>The proposed change of use of the agricultural land even without the previously proposed garage still reduces what is already limited green space within a conservation area and will have an impact on wildlife, health and well being of residents.</p> <p>Whilst the reduction in the boundary wall is welcome the laurels which have recently been planted should be maintained at no higher than the existing wall.</p>
