Application 2022/92839
To whom it may concern

I am writing to make a strong objection to the granting of retrospective planning of the outside area of Playworld.

The poor siting of this astroturfed area with seating for 60 persons, bouncy castle and portacabin and consequent noise and nuisance caused by outside ‘intrusive ‘music and childrens’ activities to nearby residents is entirely inappropriate and unsuitable.
The Environmental Officer for Health at the Townhall meeting on August 3rd this year was also opposed to this on account of light and noise disturbance to those living nearby.

I find it worrying that Playworld went ahead with this venture before permission was granted. However, Playworld does provide activities inside for youngsters which is to be applauded.

I ask that my address is withheld
