Subject: Planning number 2022/62/92839 play world

Hi William,

I am writing in relation of the planning that has been put in. I would like to object this. We are at number 75 imperial road which is not far from play world at all. We already have problems with parking even though they have a big car park people still come and park outside our house when going there.

This planning will disrupt our lives as the area will get busier and louder and it won't be fair on the kids and elderly around our area when there is loud music going on and a lot of noise this will disrupt their sleep patterns ect.

I believe they are already using the outside with out consent. There will be detrimental effect on the area by the noise and lighting.

Please can you consider this objection.

Kind regards
