Hi Nick

Thank you for the call today. In response to your email i would like to clarify the questions that questions you have.

1) I would like the application to be in my name only.

2) Our cars are also being damaged as they are now sit directly below the offending trees as periodically parts of the tree fall onthe cars. As mentioned previously the trees also cover a lawned area where young children often play. The intention would be to cut the trees back and so enabling a safer area for both people and vehicles. Amenity of light into the property is an added problem that these trees are also creating with lights having to be put on during the day which in the current energy price rises is an expense that we should not have.Added light would also allow our garden to flourish.

I hpoe i have provided the sufficient information you require.

Regards

Zaffar Ahmed
