HD8 does not have infrastructure to keep adding hundreds of houses. There are already hundreds been added nearby in Lepton. Where will all the people who live in these houses go to school, doctors, dentists etc? The schools are oversubscribed, the doctors surgeries are struggling to make appointments available already. The traffic on peniston road will continue to worsen as more junctions are added. The junction at North Road and Rowley Lane are already dangerous with poor visibility and little opportunity to pull out onto penistone road during rush hour. Kirklees continue to allow all our natural spaces to be built on. Where will all the wildlife live? Our planet it already in trouble, wildlife populations have decreased significantly in the last 50 years. When is enough enough?
