The amount of lorries going to and from the quarry is already a danger to walkers, cyclists & wildlife to say nothing of the damage being caused to the recently repaired road. Any increase will be even more detrimental. The footpath through the quarry is no longer safe due to quarry activities and the undermining of ancient dry stone walls. The footpath is a right of way & should be maintained to allow people to exercise and to connect from Cartworth Rd to Whitegate Rd. The effect on the immediate landscape is catastrophic, noisy and dangerous to the public and wildlife
