<p>This building is a piece of history that has served the community since it's existence and for over 100 years people have been coming together and dancing in this wonderful place. So many places are being taken from us why would you take a building that serves the community in so many ways.</p> <p>The Dancing House operates a successful dancing business and cafe which the local community can walk to and enjoy the warmth of the fire and company in winter and the lovely outdoor space in summer. It provides a beautiful local place for people to have parties/events, accessible, affordable dance and exercise for all ages, a great space for young people to learn in a different environment from school, a safe space for them to be themselves, providing opportunities for them in dancing, acting and singing.</p> <p>The location of this business is vital so the students and customers can access it. The Dancing House it is not just an office that can move anywhere it is a business that provides for the community and it is that very community that benefit and use the Dancing House.</p> <p>Proceeding with these apartments will have an adverse affect on a very successful business and mean the loss of jobs and in our present economic state this seems nonsensical.</p> <p>The proposed apartments benefit 10 people, lines the pocket of 1 person, will increase traffic and cause more parking issues on an already busy small road and add pressure to an already stretched infrastructure. Keeping The Dancing House Dancing benefits the whole community, helping the young and old stay active mentally and physically and lets a thriving business continue to grow and provide jobs.</p>
