Application for tree works: works to trees subject to a tree preservation order (TPO) and/or notification of proposed works to trees in a conservation area.

### Town and Country Planning Act 1990

You can complete and submit this form electronically via the Planning Portal by visiting [www.planningportal.gov.uk/apply](http://www.planningportal.gov.uk/apply)

#### Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

Please complete using block capitals and black ink.

You must use this form if you are applying for work to trees protected by a tree preservation order (TPO). (You may also use it to give notice of works to trees in a conservation area).

It is important that you read the accompanying guidance notes before filling in the form. Without the correct information, your application / notice cannot proceed.

### 5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO?  Yes  No

Are you wishing to carry out works to tree(s) in a conservation area?  Yes  No

### 6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

### 7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below: tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

*E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.*

x2 Lime Trees standing in the grounds of my garden overhanging my property. I have had three tree surgeons out and two believe the trees are diseased and unsafe. One tree in particular greatly exceeds the height of my house and dead branches are hitting the roof. What appears to be an indentation at the base of the trunk 1m off the ground in one tree very close to the house is weakening it according to the surgeons. Should there be a storm the surgeons have stated that it is highly possible that because of the height of the tree and the fact that it leans towards the house, it would cause danger to residents of this and neighbouring properties, as well as damage. the guttering of the property that has been already cleared out keeps blocking with fallen leaves causing damp issues in the house.

## 7. Identification Of Tree(s) And Description Of Works continued ...

Previously a wooden shed was badly damaged due to a falling branch and has had to be replaced. when in full foliage, in the heavy winds, it is causing me severe anxiety which impacts my mental health and job. I recently purchased this property in April 2022 when the trees were not in full foliage. the extent of the danger was not apparent at the time. Previous owners had stressed that trees were never an issue and did so in writing.

Ideally I would want the TPO lifted so that I could fell them. However if this is not possible, then permission to top and cut back as is necessary to make safe.

## 8. Trees - Additional Information

**Additional information may be attached to electronic communications or provided separately in paper format.**

### For all trees

A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

### For works to trees covered by a TPO

Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall:  Yes  No  
If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.

2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives.  Yes  No  
If YES, you are required to provide for:

#### *Subsidence*

A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals.

#### *Other structural damage* (e.g. drains, walls and hard surfaces)

Written technical evidence from an appropriate expert, including description of damage and possible solutions.

### Documents and plans (for any tree)

Are you providing separate information (e.g. an additional schedule of work for Question 7)?  Yes  No

If YES, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application. If they are being provided separately from this form, please detail how they are being submitted.

### 9. Authority Employee / Member

With respect to the Authority, I am:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

Do any of these statements apply to you?

 Yes No

If Yes, please provide details of the name, relationship and role

### 10. Application For Tree Works - Checklist

Only one copy of the application form and additional information (Question 8) is required. Please use the guidance and this checklist to make sure that this form has been completed correctly and that all relevant information is submitted. Please note that failure to supply precise and detailed information may result in your application being rejected or delayed. You do not need to fill out this section, but it may help you to submit a valid form.

#### Sketch Plan

- A sketch plan showing the location of all trees (see Question 8)

#### For all trees

(see Question 7)

- Clear identification of the trees concerned
- A full and clear specification of the works to be carried out

#### For works to trees protected by a TPO

(see Question 7)

Have you:

- stated reasons for the proposed works?
- provided evidence in support of the stated reasons? in particular:
  - if your reasons relate to the condition of the tree(s) - written evidence from an appropriate expert
  - if you are alleging subsidence damage - a report by an appropriate engineer or surveyor and one from an arboriculturist.
  - in respect of other structural damage - written technical evidence
- included all other information listed in Question 8?

### 11. Declaration - Trees

I/we hereby apply for planning permission/consent as described in this form and the accompanying plans/drawings and additional information. I/we confirm that, to the best of my/our knowledge, any facts stated are true and accurate and any opinions given are the genuine opinions of the person(s) giving them.
