We strongly object to this planning application due to the excessive noise and disturbance it will cause to ourselves and neighbours.
There is no access to the rear of this property and they CANNOT access via our garden. We will NOT allow scaffolding or building materials on our land.
and the stress and sleepless nights this is causing us already is immense.
If the build goes ahead, we will have exceptionally limited sunlight/daylight, which will not only increase our winter bills, but it will mean that we will not be able to enjoy our as it will be very cold and dark.
In addition, we will have no privacy.
Parking on the street is already impossible and dangerous, and this will cause more congestion, particularly during the build, but also after completion, due to higher occupation.
These old terrace houses were NOT designed to be extended by such a large percentage. We strongly oppose this application.
